Manage Email Attachments with a Mobile Phone

Come See Us
at Booth

#1039

Give your business customers a complete mobile email solution - so they can manage their email messages and attached files using their mobile phone.

With IP LaunchPad Mobile Messaging Suite™ from Open Port®, your business customers can use any WAP-capable mobile phone to:

- Print email and attachments to any fax machine
- View email and attached files anytime, anywhere
- Listen to email and attachments privately
- Forward email and attached files to any email address
- Delete email and attachments remotely

Come see a demonstration of Mobile Messaging Suite for WAP at Booth #1039.
